PARENT Company

LESS CHARTS, MORE UN-CHARTED TERRITORY.

BDSA's Parent Company Module provides clients a granular understanding of the performance of the largest MSOs, brands, and publicly traded companies in the cannabis industry.

By aggregating the brands owned by the largest cannabis companies, BDSA clients can now quickly compare brand portfolios and track company dominance across legal cannabis states, across categories, and within single states.

With BDSA's Parent Company Module, it has never been easier to track performance and conduct business analyses for the largest MSOs, brands, and publicly traded companies in the US cannabis industry.

For the biggest companies in the cannabis industry, deep dive into what is driving performance:

- What markets,
- What brands,
- What categories, and
- What's driving growth.
